

LOJINHA POS - USER USABILITY TEST MISSION

End-to-End Hands-on Evaluation Sheet for Kiosk Testers

TEST SCRIPT

Tester Name: _____ Date: _____ Terminal / Station: _____

Welcome to the Community Kiosk!

You are a community member using an offline self-service store with a prepaid account balance.

Please perform the tasks below naturally at your own pace. Important: We are testing the software, NOT you. Speak your thoughts aloud and note any hesitation, confusion, or delight.

PHASE 1 Account Discovery & Security Personalization

- ☐ **1. Locate & Select Profile:** Find your profile on the main kiosk screen (type name or scan card). Open it.
- ☐ **2. Open Account Settings:** Navigate to your user settings via the History / Account button.
- ☐ **3. Configure 4-Digit PIN:** Set a 4-digit PIN code to secure your account against accidental purchases.
- ☐ **4. Personalize Avatar:** Switch to Emoji avatar, select your favorite emoji icon and choose a card color.
- ☐ **5. Set Language & Currency:** Choose your preferred language (DE / EN / BR) and USD/EUR helper. Save & Logout.
- ☐ **6. Verify Access Gate:** Click your user card again from the main screen. Enter your new PIN to log in.

PHASE 2 Shopping, Weighted Goods & In-Cart Weight Modification

- ☐ **1. Add Packaged Item:** Search or scan a packaged drink/snack (e.g. Club Mate). Add 2 units.
- ☐ **2. Reduce Quantity in Cart:** In the cart panel on the right, use the '-' button to change quantity to 1 unit.
- ☐ **3. Add Weighted Goods (1,5 kg):** Search or click a weighted product (e.g. Apples / Fruit / Bulk).
--> When prompted by the weight dialog, type exactly: 1,5 kg (or 1.5) and submit.
- ☐ **4. Change Weight to 750 gram:** You changed your mind: 1.5 kg is too heavy, you only want 750 grams!
--> Remove or modify the weighted item in the cart, then add it with: 750 g (or 750 gram).
- ☐ **5. Check Total & Balance After:** Observe your Cart Total and the projected 'Balance After Purchase'.

Tester Check: Did the system convert 1,5 kg and 750 g without syntax complaints?

PHASE 3 Inspecting Audit Receipts & Financial Balance Flow

- ☐ **1. View Automatic Receipt:** Notice that checkout automatically transitioned you to Transaction History.
- ☐ **2. Verify Line Item Breakdown:** Locate your recent purchase. Verify that both the unit item and the 750 g item appear.
- ☐ **3. Verify Balance Flow Banner:** Check the 'Balance: Before -> After' indicator on the transaction card.
- ☐ **4. Check Filter & Search:** Use the type filter buttons (Purchases, Deposits) and search bar to filter entries.
- ☐ **5. Return to Shopping Screen:** Click 'Continue Shopping'. Confirm your active session is maintained seamlessly.

Tester Reflection:

Write your balance before purchase: _____ Balance after purchase: _____

PHASE 4 Real-World Interruptions, Guard Modals & Inactivity Daemon

- ☐ **1. The 'Abandon Cart' Guard Test:** Add any product to your cart. Without checking out, click the red Logout button.
--> Does the system warn you that you have unpurchased items? Click 'Keep Editing' first.
- ☐ **2. Confirm Abandoning Cart:** Click Logout again. This time confirm cart abandonment. Does it clean up cleanly?
- ☐ **3. Inactivity Countdown Test:** Log back into your account. Step away or pause without touching mouse or keyboard.
--> When 1 minute remains, an alert popup appears with a timer. Click 'Stay Logged In'.
- ☐ **4. Clean Logout:** Click Logout to return to the public screen.

PHASE 5 Admin Assisted Operations: Balance Recharge & Correction

- ☐ **1. Hand Cash to Administrator:** Ask the store admin to record a deposit (e.g. R\$ 50,00) on your account.
- ☐ **2. Verify Balance Update:** Log into the kiosk. Check your header balance: did it increase immediately?
- ☐ **3. Inspect Deposit Ledger Note:** Open Transaction History. Check the green 'ADMIN DEPOSIT' record and note.
- ☐ **4. Test Storno / Purchase Reversal:** Tell the admin you wish to cancel Scenario 2's purchase. Have admin storno it.
- ☐ **5. Verify Cancellation Receipt:** Check History: confirm the CANCELLATION entry references the original purchase date.

Tester Reflections & Usability Feedback**1. How easy was it to search items and enter/change weights (1,5 kg vs 750 g)?**

- ☐ Very intuitive ☐ Acceptable with minor friction ☐ Confusing / Difficult

2. Did the 'Balance Before -> After' flow and cart summary give you full clarity?

- ☐ Completely clear ☐ Understood after looking twice ☐ Unclear / Ambiguous

3. How was account security (PIN, hiding balance on main screen, auto-logout)?

- ☐ Felt very secure & private ☐ Adequate ☐ Annoying / Too intrusive

4. What was the most confusing or delightful moment during the test?

Overall Usability Grade: ☐ A - Exceptional ☐ B - Good ☐ C - Needs Work ☐ D - Poor
